## Compétences

HTML/CSS

POSTGRESQL

PYTHON

RUST  
(self-taught)

BASH

JAVA

PHP

## Tools

LINUX

GIT

JETBRAINS IDE

## Language

English

Technical English

## Education

### (three-year university degree in technology)

Application development course

University Institute of Technology (IUT) of Lens | Since 2023

### Baccalauréat

Mathematics and Computer Science

Lycée Louis Pasteur d'Hénin-Beaumont | 2021 - 2023

## Projects (personal and academic)

### CHIP-8 emulator in Rust

Rust, memory management, emulation, virtual machine

### Building a portfolio

Template Maud (maud.lambda.xyz), CSS, GNU gettext localization, Vercel, Rust

### Mainlining kernel linux

Porting Linux to the galaxy tab a 2016 (gtaxlwifi)

Low level, device tree source, alpine linux, C, drivers

### Automation scripts

Bash, Python

### Bomberman clone

Java, design patterns, teamwork and management

## Interests

### Competitive programming

Solve algorithmic problems efficiently and as quickly as possible.

### Ukulele

Self-taught ukulele player
